**TRAINING PREACHERS
GROWING CHURCHES**

We are committed to train you to handle the Holy Word correctly, with humility, and in a God fearing way.

Join us for 2024 academic year starting in January.

Proclamation Institute Zambia is a non-denominational Bible College that exists to grow the Church of Christ through training preachers. Our main focus is to train preachers in expository preaching. By training we mean one is taken through the lessons of exegeting the text, organising the materials, making a sermon structure, presentation, and lastly given an opportunity to preach in front of the faculties and fellow students. Our graduates are well prepared to correctly teach the Word of God for God's glory.

Who are we looking for?

PIZ welcomes any Christian involved in, or has the desire to serve God in Gospel ministry. We encourage our students to spend time in the word for their spiritual growth, and for a deeper understanding of the Bible. PIZ is a great milestone for further theological studies, and a great additional value to those that already have it. Some of our alumni have gone to study for their bachelor's and Master's in theological training.

Our courses are designed to equip and inspire both men and women with practical Bible handling skills with faithfulness and integrity (2 Tim.2:15).

2024 at PIZ

PIZ has been conducting a one-year training course. Beginning January 2025, our training course will run for two years.

PIZ will host several District preaching seminars aimed at equipping pastors and church leaders with preaching tools. Get in touch for more details.

TAKING THE TRAINING TO THE PEOPLE

We have seen that there are so many people with the zeal to serve God in pastoral ministry but have little or no proper biblical training due to lack of access to training. PIZ makes this accessible to church leaders and pastors through district seminars.

DISTRICT SEMINARS

In order to make this training accessible to the people, PIZ has been holding District expository preaching seminars since 2020. Usually these seminars are held in rural areas where most people have no opportunity to come to Bible schools to be trained in Bible handling skills. Through these seminars, the attendees are availed with Bible handling skills and practical tools to help them handle the Word of God correctly.
